

Goshen Township
New Driveway / Replacement / Inspection

PLEASE READ ALL REGULATIONS CAREFULLY
(Make checks payable to the Goshen Township Trustees)

New Driveway: Fee - \$175.00

The Goshen Township Trustees require the installation of a Driveway Drainage Facility of a size, length, shape and type as determined by the Goshen Township Service Director.

The Goshen Township Trustees require a 150 feet setback from intersecting streets or roads starting from the edge of the pavement. If a property, because of its size, cannot meet the required setback of 150 feet, the Township requires the maximum distance be used according to lot size and what is determined by the Service Director.

The Goshen Township Service Director will notify the applicant within ten (10) days as to the size, length and type of driveway facility required. The Service Director will determine driveway slant.

Replacement: Fee - \$100.00

It is understood that it is the responsibility of the property owner to purchase the culvert pipe to complete the project replacement of the driveway culvert. This agreement is in accordance with the Ohio Revised Code Section 5589.06, which requires the Township to maintain drainage along all Township roadways. The Township will install the culvert tile to assure proper drainage.

The Township requires a 12" x 20' galvanized tile, 20' is the minimum. You may go longer if you wish **however**, there is a \$3.75 charge for each additional foot beyond the 20' minimum. The Township replaces the gravel; **we do not replace blacktop or concrete.**

Inspection: Fee - \$50.00

Prior to pouring the curb cut, you are required to contact the Service Director to come out and inspect the proposed job site. Also prior to pouring the driveway the proposed job must be approved or signed by the Service Director.
